Clinical Example Report
Attn: Example Reports
200 Welsh Road
Horsham, PA 19044

Patient Name 2661B-POS
Patient ID 2661B-POS
Chain 19001921
Age Not Given **DOB** Not Given
Gender Not Given
Workorder 19001921

Received 11/05/2019 12:23

Sample ID 19001921-001
Matrix Blood
Patient Name 2661B-POS
Patient ID 2661B-POS
Container Type Clear vial

Collect Dt/Tm Not Given
Source Not Given

Approx Vol/Weight Not Given

Receipt Notes None Entered

Analysis and Comments	Result	Units	Reporting Limit	Notes
2661B Metals/Metalloids Panel 1, Blood				
Analysis by Inductively Coupled Plasma/Mass Spectrometry (ICP/MS)				
Arsenic	10	mcg/L	5.0	
Normally: Less than 10 mcg/L. Seafood consumption within 2 to 3 days before specimen collection can markedly increase total Arsenic levels.				
Various states require that levels above certain cutoffs must be reported to the state in which the patient resides. Please contact NMS Labs if you need assistance in supplying your state with the required information.				
Lead	1.0	mcg/dL	0.50	
The U.S. Centers for Disease Control and Prevention (CDC) reference value based on the 97.5th percentile of the blood lead level distribution in U.S. children aged 1-5 years is 5 mcg/dL.				
The U.S. Centers for Disease Control and Prevention (CDC) blood lead reference level for adults is less than 5 mcg/dL.

Analysis by Inductively Coupled Plasma/Mass Spectrometry (ICP/MS)				
Mercury	5.0	mcg/L	1.0	
Normally: Less than 10 mcg/L. Various States require that Blood Mercury levels above certain cutoffs must be reported to the state in which the patient resides. Please contact NMS Labs if you need assistance in supplying your state with the required information.				

Specimens for elemental testing should be collected in certified metal-free containers. Elevated results for elemental testing may be caused by environmental contamination at the time of specimen collection and should be interpreted accordingly. It is recommended that unexpected elevated results be verified by testing another specimen.

This test was developed and its performance characteristics determined by NMS Labs. It has not been cleared or approved by the US Food and Drug Administration.
