

When you need a forensic lab with quicker turnaround time.

When your evidence needs to be tested accurately, rapidly, and reliably, we can take care of it for you.

National Medical Services, now known as NMS Labs, is a nationally renowned toxicology and crime laboratory, offering evidence handling that meets the most rigorous legal, scientific, and time-sensitive demands.

NMS Labs is also the only independent forensic facility to be accredited by both the American Board of Forensic Toxicology and The American Society of Crime Laboratory Directors.

For 35 years we've offered rapid service and accurate results. And we're not slowing down. If you need post-mortem toxicology, DNA testing, or controlled substance ID, we're ready when you are.

When you need to know.™
