

When you need a clinical laboratory to stand behind you.

If you choose not to perform certain tests or are unable to fulfill all your orders, you need a back-up facility that can seamlessly provide the scope, accuracy, and reliability that you need.

National Medical Services, now known as NMS Labs, is the nation's premier independent provider of

laboratory testing services specializing in clinical toxicology and other vitally important areas of esoteric diagnostic testing.

With a 35-year history of service and innovation, NMS Labs can stand behind you at anytime—so you can stay focused on what lies ahead.
