

“Bath Salts” Mephedrone & MDPV Now Detected in One Test

NMS Labs is the market leader in research and test development for designer drugs. For your convenience, the two key ingredients found in synthetic stimulants commonly referred to as “bath salts” and “plant food” have been packaged together into one test:

Mephedrone and MDPV Stimulants, Blood

Test Code 2623B

Mephedrone and MDPV Stimulants, Urine

Test Code 2623U

NMS Labs also offers quantitative testing in blood, urine and serum/plasma for the individual compounds MDPV and Mephedrone.

Routine drug tests do not detect these synthetic stimulants.

NMS Labs can be your partner in staying current in the evolving and challenging world of designer drugs.

Designer Drug Testing Available from NMS Labs

2623B Mephedrone and MDPV, Blood
2623U Mephedrone and MDPV, Urine

(Mephedrone and MDPV also available as an add-on to the Drug Impaired Driving/DRE Toxicology portfolio. Contact Client Support for the appropriate test code.)

2615B Mephedrone, Blood
2615U Mephedrone, Urine
2615SP Mephedrone, Serum/Plasma

2588B MDPV, Blood
2588U MDPV, Urine
2588SP MDPV, Serum/Plasma

9560B Synthetic Cannabinoids Screen, Blood
4281U Synth. Cannabinoid Metabolites - Expanded, Urine
9562U Synth. Cannabinoid Metabs. Screen - Expanded, Urine

3777B Piperazines Panel, Blood
3777U Piperazines Panel, Urine
3777SP Piperazines Panel, Serum/Plasma

7472SL Synthetic Cannabinoids Identification, Solid
7210SL Stimulants and Hallucinogens ID*, Solid
7210LI Stimulants and Hallucinogens ID*, Liquid

* This comprehensive panel includes Tryptamines, Cathinones, Piperazines, Phenethylamines, Stimulants, Hallucinogens, Bath Salts
