

Introducing NMS Labs New DNA Team, Technology & Solutions

**COMPREHENSIVE SOLUTIONS.
ASCLD/LAB ACCREDITED.
CODIS READY.**

Christian G. Westring, Ph.D.
Director of Criminalistics

Dr. Westring is a Forensic Geneticist at the NMS Labs Department of Criminalistics. He is responsible for both the Forensic Chemistry and Forensic Biology units – and serving as Laboratory Director for the crime lab under ASCLD/LAB International (ISO 17025) accreditation program.

In addition to his duties at NMS Labs, Dr. Westring is also an acting member of the new NIST OSAC DNA subcommittee as well as Adjunct Professor in Forensic Genetics at Arcadia University – teaching formal course work in forensic genetics, molecular biology, serology and proteomics and overseeing various research projects.

Britton Morin, M.Sc.
DNA Technical Leader

In her role as DNA Technical Leader, Britton is responsible for implementing new approaches to processing forensic biology specimens, increasing processing efficiency and quality metrics surrounding serology/ DNA analysis.

Britton is a seasoned and experienced expert witness. Prior to joining NMS Labs, she spent eight years working at the Office of Chief Medical Examiner Department of Forensic Biology in New York City. During that time, she worked in both the Homicide/Sex Crimes and Property Crimes groups, and gained experience in working with challenging samples.

DNA Solutions

FOR LAW ENFORCEMENT, ATTORNEYS, MEDICAL EXAMINERS,
INNOCENCE PROJECTS AND PROFESSIONAL INVESTIGATORS

Casework

DNA Analysis, Autosomal STR (Casework) - 7300SL
\$853

Data Analysis, Data Pack - 7365SL

Supports the upload of results into CODIS
\$100

Note: NMS Labs testing complies with the FBI's Quality Assurance Standards. Visit nmslabs.com/about-accreditations to view our letters of approval for CODIS upload and other solutions. Ask us how to get your state added to our approved list.

Property Crime

DNA Analysis, Property Crime - 7359SL

Testing includes extraction, quantitation and amplification. Price includes upload into SmallPond™ and associated SmallPond™ license fees
\$97

Note: NMS Labs partners with SmallPond™ to provide a complete property crimes DNA testing and local databasing solution. SmallPond™ provides an approach for implementing local DNA databasing. Additional setup and subscription fees apply to access and use SmallPond™. Contact NMS Labs for more information on how best to incorporate this feature into your DNA solutions.
