

What's in the baggie?

Our crime lab has just updated its Controlled Substances and Pharmaceuticals Identification Panel

- Benzylpiperazine (BZP)
- 1-(3-Trifluoromethylphenyl) piperazine (TFMPP)
- Alpha-methyltryptamine (AMT)
- Dimethyltryptamine (DMT)
- 2,5 Dimethoxy-4(n)-propylthiophenethylamine (2C-T-7)
- 4-bromo-2,5 dimethoxyphenethylamine (2C-B)
- Sibutramine
- *Plus more than 200 other drugs*

Available in both solids and liquids. Tests can also be ordered as direct analyses. See below for test codes.

Let NMS Labs Crime Lab help you keep up with the ever-evolving abused drug trends.
