

We've Expanded Our Synthetic Cannabinoids Urine Panel

NMS LABS CONTINUES TO KEEP UP WITH THE ILLICIT DESIGNER DRUG MARKET TO HELP MAKE YOUR JOB EASIER

NMS Labs is pleased to announce the latest in its twice yearly updates to the scope of its synthetic cannabinoids testing in urine. After monitoring the market place and the latest designer drug trends, we have added eight new compounds to the scope of the test and retired older compounds that are no longer in circulation. Our active management of the scope of this test ensures that you are paying only for the testing you need and that it is relevant to your investigation and today's illicit designer drug market.

9562U Synthetic Cannabinoid Metabolites Screen, Expanded, Urine

5-Fluoro-PB-22, AB-CHMINACA, AB-FUBINACA, AB-PINACA, ADB-PINACA, ADBICA, AKB-48, BB-22, JWH-018, JWH-073, PB-22, UR-144 / XLR-11 metabolites

The synthetic cannabinoid marketplace continues to evolve at a breakneck speed, with new compounds appearing in **Treatment, Emergency Room, DUID arrest, and Medical Examiner populations** every few weeks. Progressive companies concerned about safety in the **Workplace** are also starting to add synthetic cannabinoid testing to pre-employment screens.

The list of **adverse effects** is growing rapidly and includes neurological effects such as anxiety, paranoia, and agitation, as well as tremor, seizures, tachycardia, and hypertension. Getting to the root cause of these symptoms in decedents, intoxicated patients and arrestees is critical from both a public health and criminal justice perspective, and makes it essential you are using the most current test.

Since it is recognized that synthetic cannabinoids are here to stay, make sure you are testing for those most likely to be positive with NMS Labs Expanded Urine Synthetic Cannabinoid Screen.

Designer Drug Testing Available from NMS Labs

Novel Psychoactive Substances:

- 2626** - Bath Salts Panel (Blood, Urine, Serum/Plasma)
- 8756** - Novel Psychoactive Substances (NPS) Screen 1 (Blood, Urine, S/P) *Quantitative results for select compounds available soon!*
- 8210** - Novel Psychoactive Substances (NPS) Screen 2 (Blood, Urine, Serum/Plasma)
- 1485** - Designer Opioids (Blood, Urine, Serum/Plasma)
- 3143** - NBOMe (Qualitative) (Blood, Urine, Serum/Plasma)
- 4046** - Pyrrolidinophenone Panel (Qualitative) (Blood, S/P)
- 4047** - Pyrrolidinophenone Panel (Blood, Serum/Plasma)
- 7210** - Comprehensive Stimulants and Hallucinogens Panel (Solid, Liquid)

Synthetic Cannabinoids:

- 9560** - Synthetic Cannabinoids Screen (Blood)
- 9562** - Synthetic Cannabinoid Metabolites Screen - Expanded (Urine)
- 9563** - Synthetic Cannabinoid Metabolites Screen (Urine)
- 9567** - Synthetic Cannabinoids Screen (Oral Fluid)
- 7472** - Synthetic Cannabinoids Investigation (Solid)
- 7473** - Comprehensive Drug Panel including Synthetic Cannabinoids and Designer Drugs (Solid)
