DNA Technical Leader  
NMS Labs  
2300 Stratford Avenue  
Willow Grove, Pennsylvania 19090

Dear Ms. Morin,

I am writing with regard to FBI Quality Assurance Standard 17.2.1 which states "A vendor laboratory that is performing forensic DNA analysis for a law enforcement agency or other entity and generating DNA data that may be entered into or searched in CODIS shall not initiate analysis for a specific case or set of cases until documented approval has been obtained from the appropriate NDIS participating laboratory's technical leader of acceptance of ownership of the DNA data."

This letter is to document that the DNA Technical Leader for the Kentucky State Police Forensic Laboratory approves acceptance of DNA data obtained by NMS Labs utilizing STR analysis via Amp<sup>ℓ</sup>STR<sup>®</sup> Identifiler<sup>®</sup> or AmpF<sup>ℓ</sup>STR<sup>®</sup> Yfiler<sup>™</sup> for entrance into CODIS of eligible samples from cases submitted to you by the Kentucky State Police Forensic Laboratory.

Sincerely,

A handwritten signature in cursive script that reads "Margaret Sanger".
