To Whom It May Concern;

This letter is to acknowledge that National Medical Services, Inc. dba NMS Labs is a private accredited laboratory that has been in business for over 45 years. We offer a test for Perfluoroalkyl Substances (PFAS) for the purpose of biomonitoring. NMS Labs has the capacity to support PFAS biomonitoring analysis from State and Local Health Departments. This Laboratory Developed test (LDT) was developed and validated as required under CLIA accreditation and other state regulatory agencies. A copy of our CLIA permit, along with copies of all our accreditations and licenses, are located on our website at <http://www.nmslabs.com/about-accreditations/> .

Regards,

Margaret R. Beamer, MS, MT (ASCP)  
Director of Quality Assurance
