Test Updates

Modified

Updated [7/28/2021]: Specimen Requirement Volume was decreased for the following test codes: 10039B, 10139B, 3241B, 50016B, 52316B, 54006B, 55033B, 55073B, 55075B, 55077B, 55078B, 55265B, 5645B and 8660B.

Updated [6/04/2021]: Test 1267SP is being discontinued. The alternate test was listed as: "No Alternate Test Available". The 'Alternative Test' was updated to 1269SP.

In our continuing effort to provide you with the highest quality toxicology laboratory services available, we have compiled important changes regarding a number of tests we perform. Listed below are the types of changes that may be included in this notification, effective Monday, September 13, 2021

Test Changes - Tests that have had changes to the method/ CPT code, units of measurement, scope of analysis, reference comments, or specimen requirements.

Discontinued Tests - Tests being discontinued with alternate testing suggestions.

Please use this information to update your computer systems/records. These changes are important to ensure standardization of our mutual laboratory databases.

If you have any questions about the information contained in this notification, please call our Client Support Department at (866) 522-2206. Thank you for your continued support of NMS Labs and your assistance in implementing these changes.

The CPT Codes provided in this document are based on AMA guidelines and are for informational purposes only. NMS Labs does not assume responsibility for billing errors due to reliance on the CPT Codes listed in this document.
