**0560P Benzocaine, Plasma**

Analysis by Gas Chromatography/Mass Spectrometry (GC/MS)

Benzocaine	None Detected	mcg/mL	0.0050	
Synonym(s): Orabase; Oragel				

Benzocaine is a local anesthetic that is rapidly absorbed through the skin and mucus membranes. It is metabolized in plasma, and it is unlikely that it will be in plasma at detectable levels following normal use.

This test was developed and its performance characteristics determined by NMS Labs. It has not been cleared or approved by the US Food and Drug Administration.
